

myBuildings™

What is myBuildings™ and how does it help with the management of residential properties?

Core Vision has developed a platform to meet the need for Residential Property Management. **myBuildings™** is an innovative, web and mobile based software solution which contributes to efficient Facilities Management and Resident Service Management

- Fast response to residents
- Increased transparency and informed decisions
- Control of contractor work
- Reduced operational costs
- Safety and security for residents, occupiers and building management staff

The benefits:

- Engage with residents on a whole new level
- Activate spaces and provide your services using an innovative, world-class software solution designed to assist building managers and strata managers in the residential sector
- Increase occupier satisfaction and retention
- Reduce operational costs and mitigate risk
- Make informed decisions
- Protect asset value and build "Service Book" for owners
